Submit & track a support ticket

Click the **Submit a request** link and fill in the form.

Ticket Status

Open	The ticket is open and either with our support staff or pending with our product/development team.
Awaiting your reply	Mediaocean requires information or confirmation from the ticket requestor.
Fixed – Pending RCA	Issue has been mitigated and a viable workaround has been provided. Mediaocean is actively working on Root Cause Analysis (RCA).
Solved	The ticket has been resolved.

Resolution Type Definitions

Support resolution	Description
Recommendation/Explanation	Data change required (by client) A change to the data within the platform was required by the end user.
	Alternate workflow provided Mediaocean Support provided an alternate workflow to mitigate the reported issue.
	System functionality explained Field or functionality defined by Mediaocean Support.
Record/Profile Set up	New record (by client) A new record or profile, typically managed by the client, must be added.
	Record added/changed (by Mediaocean Support/Implementation) A field or record that is only editable by Mediaocean was changed. <i>*May require data maintenance approval from client.</i>
	Record added/changed (by Account Management) A field or data set configuration that is managed by Mediaocean Account Management was changed. <i>*May require data maintenance approval from client.</i>
Defect	Code fix This indicates a deployment of new code to the Mediaocean platform to mitigate the reported issue.
	Data fix/patch This indicates a change or patch to existing data was executed by Mediaocean. <i>*May require data maintenance approval from client.</i>
Redirect	Enhancement request (managed by Account Management) Account Manager will reach out to end-user to discuss a functionality enhancement.
	Other (managed by Account Management) Account Manager will reach out to end-user regarding their request (e.g., report design, workflow exploration, etc)
	Existing record change (managed by Client) Records maintained on the client side (e.g., User security) must be changed to mitigate issue.
	External system (managed by Third Party) A change is required by an integrated Third Party system (e.g., Integrated Ad Server setting) to mitigate issue.
